DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-4 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claims 1-4 were amended to recite, "wherein a moving speed of the recording material in the normal mode is the same as a moving speed of the recording material in the resin sheet mode". This limitation is not supported by the disclosure as originally filed and is considered new matter.

Allowable Subject Matter

Claims 1-4 would be allowable if the rejection under 35 U.S.C. 112, first paragraph, set forth in this Office action is overcome.
